INVESTIGATE AND BE CONVINCED! THE POLARIS MINING AND MILLING CO.,

DEVELOPMENT

Work has been progressing steadily for the past 60 days on the GOLDEN FAGLE, which now has a main tunnel 135 feet long and a winze clasfr in the tunnel) 45 foot deep our the vein. The ore contains COPPER, GOLD and SILVEH and, the vein has widened out and the ores are growing richer with increasing depth. The veins of the POLARIB group are TRUE FISSURES, having a taleose gouge on out or both walls, which in some instances is as much as 3 feet thick.

The veins on twelve of our claims, notably on the "None Such," the "Fraction" the "Countock" and the "Polaris," No. 1 sad No. 2 are well defined by strong shrfare out croppings and are easily traced from the highest point of the imountain to the-base and show the same features of strength throughout their online length. The company has recently purchased a towagie at Evan's Point, on the San Francesco River, 4 miles from Clifton and 2 miles from the Polaris group of mines. The townsite consists of 70 acres of land, on which are located a twenty stamp mill. a stone reception of the polaris grown, 2 adobe thouses, a pumping plant and pipe line running from the pump on the river to the stone reservoir on the platen above. A wagon road, purchased by the company, the construction of which originally cost about 5,000, runs from the mines to the townsite.

The ore values are enormous, our mining claims, placed and, wolld extend over 5 mining claims, placed and, wolld extend over 5 mining claims, placed and end, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend, wolld extend over 5 mining claims, placed and tend.

development the company will, in a short time, he among the fargest producers in the district.

The ore values are sormous, our mining claims, placed and to end, would extend over a miles in length, and we have not less than a miles of great flaster veins, ranging in width, at the surface, from with the "Fraction,". We wont to extend the tunnel in the "Golden and the "Fraction," We wont will rain into the millions.

Job creation and the product the "None Such," thus blocking, of ore which in value will rain into the millions.

Job creation and the product of the millions of the surface are almost before any company of the surface and courage to grap spensible to success. A small invesiment lying quietly in a says, "Minnig is the surfect ways for thought of the company of the surface and the surface and
